

 **Cove**
Spas™

Ah! That sensation of relaxation and sore muscles being soothed by the warm swirling water of your own backyard getaway.

Some of life's best experiences start with being simple and easy. It does not get any more simple than placing your spa on a flat, supportive surface, filling it with a normal garden hose, and plugging in the attached cord to any standard outlet.

Cove Hot Tubs bring stress free enjoyment by being manufactured with you, the consumer, in mind. All Cove Hot Tubs are manufactured with the highest quality components and manufactured in the USA, with over 20 years of experience.

Cove has a hot tub for everyone! The standard line of Cove Hot Tubs comes with a 4 KW heater, Ozonater, and Deluxe LED light package.

Cove's 4 KW inline heater provides fast and convenient heating and recovery time for those cold climates, where enjoying your hot tub is the best way to spend time in the great outdoors.

The Deluxe LED light package includes outside cabinet lighting along with more vibrant inside LED lighting to set the mood for relaxing and the relief of stress by the use of chromo therapy. Square sided models include an adjustable LED waterfall to help enhance your relaxation time.

The standard Corona Discharge Ozonater provides peace of mind and a reduction of hot tub sanitizers by approximately 40% over the life of the hot tub.
